

Table 1
Potentially Feasible Water Management Strategies for Wholesale Water Providers

Water Management Strategies	Regional																Local																					
	Tarrant Reg. Water District	North TX Mun Water Dist	Trinity River Auth	Upper Trinity Reg. Water Dist	Dallas Co. PC MUD	Greater Texoma Util Auth	Fort Worth	Dallas (DWU)	Corsicana	Sabine River Authority	Sulphur River Water Dist	Upper Neches River MWA	Athens MWA	Bartonville WSC	Cedar Hill	Denton	East Cedar Creek FWSD	Ennis	Forney	Gaineyville	Garland	Lake Cities Mun Util Auth	Mansfield	McKinney	Midlothian	Mustang SUD	North Richland Hills	Palo Pinto MWD #1	Rockwall	Rockett SUD	Seagoville	Terrell	Walnut Creek SUD	Waxahachie	Weatherford	West Cedar Creek MUD	Wise Co. WSD	
Conservation*	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X	X
Expansion of Existing Supplies:																																						
Continue/Increase Supplies from TRWD			X			X									X						X						X				X	X	X	X	X	X	X	
Continue/Increase Supplies from DWU				X										X	X												X	X				X						
Continue/Increase Supplies from UTRWD															X					X				X														
Continue/Increase Supplies from Fort Worth (TRWD)																									X													
Continue/Increase Supplies from TRA (TRWD)																									X													
Continue/Increase Supplies from NTMWD																X	X				X					X			X									
System Operation	X						X																															
Temporary overdraft existing lake(s)							X																													X		
Midlothian Pipeline Expansion																								X														
Additional Ray Hubbard yield								X																														
Expansion of Treatment and Delivery System	X	X	X	X		X	X	X	X				X		X	X	X			X		X		X					X	X		X	X	X	X	X	X	
Add'l Lake Athens beyond Operational Yield												X																										
Lake Palo Pinto Redistribution of Supplies																										X												
Connect to Existing Supplies:																																						
Begin Purchasing from DWU													X																							X		
Begin Purchasing from NTMWD																																						
Begin Purchasing from TRWD									X				X																							X		
Begin Purchasing Treated Water from Azle																																					X	
Lake Fork Connection							X		X																													
Lake Palestine Connection (IBT)							X			X																												
Toledo Bend project (New IBT)	X	X	X	X			X		X																													
Toledo Bend water right amendment (New IBT)										X																												
Oklahoma (New IBT)	X	X		X			X								X																							
Forest Grove Reservoir (potential TXU agreement)													X																									
Develop supplies from Joe Pool Lake (TRA)														X										X														
Connection to Richland-Chambers									X																													
TRA Ellis County Water Supply Project																											X	X										

* Note: Specific Conservation Strategies are listed in a separate analysis.
 "IBT" denotes a Permitted Interbasin Transfer.
 "New IBT" denotes an Interbasin Transfer requiring a new IBT permit.

Table 1
Potentially Feasible Water Management Strategies for Wholesale Water Providers

	Regional														Local																								
	Tarrant Reg. Water District	North TX Mun Water Dist	Trinity River Auth	Upper Trinity Reg. Water Dist	Dallas Co. PC MUD	Greater Texoma Util Auth	Fort Worth	Dallas (DWU)	Corsicana	Sabine River Authority	Sulphur River Water Dist	Upper Neches River MWA	Athens MWA	Bartonville WSC	Cedar Hill	Denton	East Cedar Creek FWSD	Ennis	Forney	Gainesville	Garland	Lake Cities Mun Util Auth	Mansfield	McKinney	Midlothian	Mustang SUD	North Richland Hills	Palo Pinto MWD #1	Rockwall	Rockett SUD	Seagoville	Terrell	Walnut Creek SUD	Waxahachie	Weatherford	West Cedar Creek MUD	Wise Co. Water Management Strategies																																							
Continued Reuse:																																							
Direct Reuse for Irrigation					X																																		
Indirect reuse from Bardwell Lake															X																								
Indirect reuse from Moss Lake																X																							
Add'l indirect reuse - TRA/Waxahachie																																			X				
Indirect Reuse to Lake Weatherford																																			X				
Reallocation of Reservoir Storage:																																							
Reallocation of Wright Patman (New IBT)	X	X	X			X																																	
Reallocation of Texoma (New IBT)	X	X				X																																	
New Surface Water Projects:																																							
Lower Bois d'Arc Reservoir (New IBT)																																							
Marvin Nichols I Lake (New IBT)	X	X									X																												
Ralph Hall Reservoir (New IBT)											X																												
George Parkhouse I Lake (New IBT)											X																												
Lake Columbia (New IBT)											X																												
Lake Tehuacana	X																																						
New Surface Water Project w/ other entities															X																								
Brazos River Supply (IBT)											X																												
Lake Fastrill (IBT)											X																												
Turkey Peak Reservoir																																						X	
Lake Palo Pinto Off Channel Reservoir																																						X	
New Groundwater:																																							
Roberts County groundwater	X	X																																				X	
New Well(s) Near Eagle Mountain Lake	X																																						
New Well(s) in Carrizo-Wilcox Aquifer																	X																						
New Well(s) in Trinity Aquifer																	X																						
Additional Wells for Suppliers Already Using GW																																						X	
Carrizo-Wilcox water from Region G	X	X																																				X	
Supplemental Wells																	X	X																				X	
Conjunctive use of Ground & Surface water																																							

* Note: Specific Conservation Strategies are listed in a separate analysis.
 "IBT" denotes a Permitted Interbasin Transfer.
 "New IBT" denotes an Interbasin Transfer requiring a new IBT permit.
