August 15, 2007

Mr. James M. Parks, Chairman
Region C Water Planning Group
North Texas Municipal Water District
P.O. Box 2408
Wylie, Texas 75028

Dear Mr. Parks:

This letter is to inform you and the Regional C Water Planning Group that I have retired from TXU. Therefore, I will be resigning from the Water Planning Group, effective October 2, 2007.

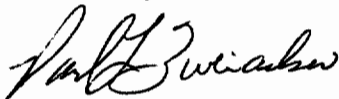

I have greatly enjoyed serving on the Committee, and it has been both an honor and a privilege to have worked with each committee member.

Thanks for your leadership as Chairman; you have done an outstanding job in leading the Committee through many difficult decisions. Also, thanks to each individual Committee member for being courteous and gracious during our many deliberations. With the diverse interests of the group, it is amazing that most of our votes have been unanimous. This says a lot about the character of each member.

To replace me on the Committee, representing the Electric Utility Industry, I recommend Mr. Jerry Johnson (see attached resume). He has 35 years experience in the industry, and specifically understands the water requirements for the industry. He presently serves as my alternate on the Committee.

I wish the Committee great success going forward in planning for the Region's future water needs. This is a difficult task; however, I know it is in capable hands!

Sincerely,

Paul L. Zweiacker

cc: Ms. Jody Puckett, Vice Chairman

Gerald (Jerry) R. Johnson

Career Profile: Environmental Manager

Employed with TXU for the past 35 years and have served as a manager in the company's Environmental Services Department since 1987. In my current position, Generation Environmental Manager, I manage a comprehensive environmental program to secure all environmental permits/approvals and water resources to meet the company's generation plan and to ensure that TXU's generating facilities are operated in compliance with all environmental laws, permits and regulations. I supervise a staff of seventeen professionals and manage an annual budget of \$3.0 million.

Water Resources Experience

Responsible for securing and managing water contracts with river authorities/water districts and state water rights permits needed to support the operation of TXU's nineteen generating facilities in the state of Texas. I have served as the Electric Utility alternate for both Region C and D Water Planning Groups.

Education

M.S. Environmental Sciences, Texas Christian University, Ft. Worth **B.S.** Biology, Texas Wesleyan, Ft. Worth.
