

Region C Water Planning Group Proposal for Water Summit(s)

- What:** *A partnership with local Chambers of Commerce and/or regional organizations, such as the North Texas Commission, to provide a regional overview of water planning issues – why it’s important to the public and the business community, what the Regional Water Plan currently includes, how changing conditions could alter the proposed water management strategies.*
- When:** *February-March 2010*
Event(s) could take the form of a half-day water summit, featuring speakers and panelists from the Legislature, TWDB, water providers, academicians, representatives of the business community, water engineers, and Region C officers. Event format and timing subject to further discussion with local partner organizations.
- Where:** *TBD*
- Who:** *Open to the public, but especially focused on the business community, civic leaders and other key influencers in the region.*
- Details:** Logistical details of the event to be managed by the Chambers of Commerce, NTC or other partner organization. We need to initiate a discussion of the proposed event(s) now with the selected organization in order to evaluate their interest, identify event Steering Committee members and plan the logistics.
